Truck Shop Sheet Metal

Most panels are E-D-Primer coated and are carefully packaged to protect against damage that may occur during transit. Most parts are individually boxed for damage free shipping. However, after overseas transport & cross country delivery to you, it is likely there could be a small ding or minor scratch. These minor blemishes cannot be helped and are considered normal due to the nature of the product. Test fit all panels prior to paint and installation. Any physical damage in transit must be reported to delivering carrier at time of delivery.

STANDARD CAB RETRACTABLE SEAT BELTS

The factory seatbelts in the 1988-98 Chevy Pickup Trucks were a dual retractor design. As the belts age, the retractors can become problematic and often times stop functioning all together. Our single retractor conversion kit updates your seatbelts to a more reliable and modern design that ensures years of reliable service. No modification is needed as the belts are a direct-fit, bolt-in replacement.
